Re: Consent to take students off Campus in Physical Education Classes

The purpose of this letter is to inform you that your son/daughter will be involved in a number of activities this year that involve being taken off of the school grounds. These activities include such things as slo-pitch, golf, curling, skating and bicycling. Although they may not be involved in all of these activities we would like your consent to take them off campus should they be involved in these activities.

Where activities that are more field trip in nature and involves the student being away from the school for more than one hour or a typical class period a permission form and more in depth information will be sent home. These types of activities would be things such as a backpacking trip, skiing, squash or wall climbing. These types of activities would require a field trip beyond Strathmore and therefore a greater extent of information and parental awareness.

In essence we are seeking permission from parents/guardians to involve your child in activities that require us to leave the school in order to provide a more diverse physical education program.

If you have any questions regarding this matter please contact the school at 403-934-3135 and discuss with your child's physical education teacher.

Thank you for your attention to this matter.

Strathmore High School Physical Education.
